Defining a Basic Installation

A basic installation consists of the following 3 aspects:

CPE (client premise equipment) is mounted outside. The CPE comes in small, medium or large sizes, depending on the distance from the AP it has to connect to. It is normally a small weatherproof device mounted on an exterior wall, the eaves or rooftop. It can also be mounted on a separate free-standing pole or tower. The installed CPE points to the AP located strategically to service a specific area.

Wiring: A CAT5 cable also known as Ethernet cable is run down from the CPE on an exterior wall. Our installers try to obscure the cable as much as possible. The cable needs to transfer from the outside of the house to the inside either through the roof, or through drilling a small hole in a wall or door/window frame. If there are existing cabling for phone, or Satellite TV we will try to work with these as much as possible. If you need additional wiring please contact us for an official quotation.

Connect your computer(s): Once inside the house the cable is connected to a power source called a POE (power over Ethernet) that supplies the equipment outside with DC electricity. The CAT5 cable coming from the POE can be connected to a single computer or into the internal network. A basic installation provides you with 1 Ethernet connection.

With everything in place – the connection is tested and all basic configuration setups are done.

A Basic Installation includes:

Traveling Installation and activation charge 30m or less of CAT5 cable CPE with POE One exterior wall mount One connection and configuration to a computer network card, or to the internal network

The following is considered additional and will be charged separately:

To install switches, Wi-Fi hotspots, VOIP connections etcetera will all be charged additional.

Special installations (e.g. Non-penetrating roof mount, extension pole, wall jack, additional cabling beyond 30m etc.) Custom installation is done by quote only. Trouble shooting computer problems are also not included. Normal labour rates will apply to assist with these problems.

Ownership of Equipment

The CPE and POE supplied at installation remains the property of SWDconnect and must be returned to us upon termination of service if the account is not payed in full. Whilst the CPE is in service on your premises you are responsible to insure it against theft or accidental damage (as covered under a standard short-term insurance policy) – or if you do not have insurance, pay for the repair or replacement if such damage occurs. SWDconnect will however support and maintain this CPE to operate optimally – which includes installing new firmware updates as they become available. The CPE should have a technology lifespan of at least 2 years. CPE's older than 2 years that need to be upgraded will result in an upgrade cost for the customer.

All other equipment installed is purchased from SWDconnect and ownership transfers once fully paid. Although most of this additional equipment comes with guarantees / warranties, it still remains equipment under your care and needs to be maintained / operated in accordance with the suppliers' specifications. Any after sales support on this equipment that is not covered by the manufacturer's guarantee, or that does not clearly point to a faulty installation by SWDconnect, will be chargeable to the customer.

Environmental Factors to Consider.

Heat, cold, rain should not under normal circumstances affect your wireless connection. Environmental factors like electrical surges, lightning, water damage and extreme winds can affect your connection.

The Internet connection is relayed wirelessly through our network and is reliant on electricity. Although we do have electrical backups throughout our network, and backup generators at all our data centres, extreme periods of electricity loss could affect the service we supply.

Demarcation and Fault Finding

SWDconnect provide ICT (Information and Communication Technology) services over its wireless network. The point of demarcation between the SWDconnect network and the customer network is the CPE. SWDconnect is not responsible for the operation of the customer network beyond this point. In the event of a loss of service, it is the customer's responsibility to ensure their network is functional, and that all cabling and equipment is operational. All cabling and equipment on the customer's premise can be serviced by any well-trained IT technician.

In the event that the customer requests a service call, SWDconnect personnel will remotely test the service to the CPE. If the CPE is connected to the network we will log into the CPE and check for LAN (Local Area Network) connections to the internal network. If there is no fault to this point, a call can be logged, but a service charge will apply.

A fault can be reported by either phoning the call centre at 0280070020, sending an email to support@swdconnect.co.za or by logging it through the portal at account.swd.net.za. A customer number and a clear fault description must accompany the report.

Damaged equipment will be replaced under warranty, if applicable, unless damage is caused by factors not covered in the warranty. Equipment damage out of warranty will be billed to the customer.

SWDconnect provide free technical and telephonic support, but it is limited to your connection and related issues with our service. Any computer related problems, software problems, Operating System problems, printer problems, virus issues etcetera will be handled as IT support and is chargeable if not referred to a local IT hardware company.

Under no circumstances is the customer allowed to remove the wireless equipment such as stated above.

Any passing of time not be construed as a waiver of the service provider's rights.

The customer is aware that changes could be made to the MoA relating to the conditions of service, and that these changes will be applicable to his/her/their service agreement. The latest version of the MoA as can be found on SWDconnect Website will always contain the relevant set of terms and conditions.

Any aspect relating to the service provided or payment thereof that the customer wants to bring into dispute, has to be submitted to SWDconnect in writing via email or registered mail. 1. NATURE OF THE GENERAL TERMS AND CONDITIONS

1.1. These General Terms govern the provision of all services and the relationship between Customer and SWDconnect in general.

1.2. If SWDconnect and Customer conclude multiple Subscriber Agreements, but only one set of General Terms, then that set of General Terms will apply to all Subscriber Agreements, regardless of whether the system generated contract numbers on the documents are not the same.

1.3. If SWDconnect and Customer conclude multiple Subscriber Agreements, each with its version of General Terms, then the General Terms will apply only to the relevant Subscriber Agreement— as evidenced by the system generated contract number.

2. DURATION, RENEWAL AND TERMINATION FOR CONVENIENCE

2.1. Commencement and duration of the Contract, billing start dates and renewal

2.1.1. The Contract will become binding on the Parties on the Commencement date and will continue to be binding on each Party up to the end of the Initial Period or any Renewal Period, unless this Contract is terminated earlier by either of the Parties for cause on the grounds set out in the Contract.

2.1.2. In respect of a Service that does not involve the provision of a Circuit, or is provided over an Excluded Circuit, the Initial Period will commence on the Activation Date of such Service. In respect of each Circuit, the Initial Period for Services provided over that Circuit (whether bundled with the Circuit or not) will commence from the Activation Date. Where the Services require the provision of multiple Circuits, the Initial Period will begin on the Connection Date of the last Circuit.

2.1.3. When services are bundled with a Circuit, the cost of the Circuit is the single most significant component of the bundled Service, and accordingly, Customer agrees that SWDconnect will be entitled to charge Customer from the Connection Date, regardless of whether any bundled value-added services had been activated or not.

2.1.4. If Customer is a juristic person then Customer must:

a) give SWDconnect written notice of its election not to renew the Contract at least 90 (ninety) days before the expiration of the Initial Period;

2.2. Termination of a Fixed Term Agreement by an Individual Consumer for no cause

Such termination will be subject to payment of a reasonable cancellation fee that will be determined and calculated at the time when the notice to terminate is given by the consumer, using the guidelines set out under section 14 and regulation 5(2) of the CPA.

2.3.2. On receipt of the termination notice SWDconnect will advise the Individual Consumer of the amounts which are still owed to it, namely all the arrears amounts owing to SWDconnect in terms of the Contract up to date of termination and the cancellation fee. The Individual Consumer will pay SWDconnect such amounts by the Due Date.

3.1.4. If the Customer requests that an installation be attended to after office hours, SWDconnect may, if it can perform such after-hours work, charge an after-hours maintenance charge on a time-and-material basis as determined by SWDconnect from time to time.

3.1.5. LAN cabling pricing is deemed to be budgetary unless a physical site survey has taken place to confirm cable routes.

3.1.6. If no conduit-pipes are available for SWDconnect's use in any building where SWDconnect must install a Service requiring conduit pipes, SWDconnect may, at its discretion:

a) refuse to provide the Service in that building or any part thereof until such conduitpipes or other facilities have been so installed;

or

b) quote an installation cost in respect of the required conduit pipes, and if accepted by the Customer, install at the Customer's cost the required conduit pipes or other facilities.

3.1.7. SWDconnect's duty to install the Circuit and the Managed Service Equipment or Subscriber Equipment will terminate once the Circuit and where applicable the Managed Service Equipment or Subscriber Equipment have been supplied, installed and the Customer can receive the Services.

3.1.8. Only Subscriber Equipment that has been type approved by ICASA may be used in conjunction with the SWDconnect Service. Type approved equipment obtained from authorised dealers will have an ICASA type approved label affixed to the equipment and/or packaging.

3.1.9. If the Subscriber Equipment is modified, it may not be used in conjunction with the SWDconnect Service until such time that ICASA has approved the modification.

3.1.11. If the Customer is not the owner of the premises where the SWDconnect Service and/or where applicable the Managed Service Equipment is to be installed, the Customer must before any installation by SWDconnect, at its own cost and expense, obtain written permission from the owner of such premises for any such installation. The Customer indemnifies SWDconnect against damages or claims resulting from the failure to obtain such permission including Anticipatory Costs which may have to be incurred by SWDconnect should SWDconnect have to remove any circuit and/or the selected Subscriber Equipment from the premises.

The Customer must at its own cost and expense ensure that optimum environmental conditions as may be required for the proper management and/or functioning of the Circuit and Managed Service Equipment or Subscriber Equipment are provided, such as adequate power supply, ventilation, lighting and wall/rack space.

3.2. Use of the Services, Managed Service Equipment and related equipment

3.2.2. The service may not be used to:

- a) knowingly create, store or disseminate any illegal content;
 - b) infringe on any third parties' intellectual property or copyright;

3.3.1. Customer recognizes that the Internet and data networks consist of multiple participating networks that are separately owned and not subject to SWDconnect's control.

3.3.2. Because of the position set out in clause 3.3.1 above, SWDconnect does not warrant that the SWDconnect services will be operational on a 24 (twentyfour) hour 365 (three hundred and sixty-five) days per year basis.

3.3.3. Furthermore, SWDconnect expressly advises, and the Customer acknowledges and accepts that the Subscriber Equipment is not manufactured by SWDconnect, but by third parties. In most cases, SWDconnect will not be able to open certain Subscriber Equipment or to test or operate the selected Subscriber Equipment to ensure that they are fit for purpose and/or are intact before they are handed to the Customer.

3.3.4. Considering the disclosures housed under clauses 3.3.1 - 3.3.3 SWDconnect expressly stipulates and the Customer acknowledges that SWDconnect cannot warrant or guarantee that the Services and/or the Subscriber Equipment will:

a) be free of errors or interruptions; b) be available; c) be fit for any purpose; d) not infringe on any third-party rights; e) be secure and reliable, except where the Services, the Circuit and/or Subscriber Equipment are found to be defective and such defect has been solely caused by SWDconnect under sections 54, 55 and 56 of the CPA, where applicable.

Considering the above disclosures, Customer agrees that it will not be allowed to: a) Withhold any amounts due and owing to SWDconnect; or b) Deduct any monies, or c) Allege a breach of contract in respect of any temporary unavailability of the Services, the Circuit or the Managed Service Equipment, except and to the degree that SWDconnect is solely responsible for any such unavailability, or failure.

3.3.6. Notwithstanding the provisions of clause 3.3.4 above, SWDconnect will use its best endeavours where SWDconnect can do so to notify the Customer of any failure of, or interruption to the Services and/or Circuit and where applicable any required maintenance and repairs which may result from such failure, interruption or unavailability.

3.5.1. Throughout the term of the Contract the Service, any Circuit or Managed Service Equipment used by the Customer will be deemed to be in good working order until SWDconnect is advised otherwise.

3.5.2. Unless clauses 3.5.5 or 3.5.6 apply, or unless expressly stated to the contrary, the costs in respect of any repair and/or maintenance of the Circuit and the Service will be incurred and covered by SWDconnect.

3.5.3. SWDconnect will attend to faults reported by the Customer during Office hours and will apply its reasonable endeavours to have the affected Circuit and/or the Service restored in the shortest possible time.

3.5.4. The Customer is responsible for maintaining all Managed Service Equipment and Subscriber Equipment unless SWDconnect has agreed to provide maintenance for the Managed Service Equipment, which will be charged out at the rate set out in the Subscriber Agreement.

3.5.5. If the Customer requests that a fault be attended to immediately and requires that repair work be carried out after office hours, SWDconnect may, if it can perform such after-hours work, charge an after-hours maintenance charge on a time-and-material basis as determined by SWDconnect from time to time.

3.5.6. If SWDconnect determines that the fault reported by the Customer was caused by the Customer or by any Subscriber Equipment or by any other equipment that SWDconnect has not agreed to cover, the Customer will be liable for payment of the applicable call-out charges, as determined by SWDconnect from time to time.

4. CHARGES AND PAYMENT

4.1. In return for the supply of and access to the Services, the Customer agrees and undertakes to pay SWDconnect the Charges.

Recurring charges are payable in advance for the first and any subsequent rental period on the first day of the month, with effect from the Activation Date;

4.2.5. cancellation fee: a fee raised by SWDconnect to place it in the position it would have been had the Customer fulfilled the Contract;

4.2.6. call/usage charges: levied on the use of the Service where such use is metered. Call charges and usage charges are billed to the Customer at the end of each billing period.

4.2.7. anticipatory costs: levied to recover the charges that SWDconnect would have billed for the duration of the Fixed Term Agreement if the Contract had run its full term.

4.3. Billing

4.3.1. SWDconnect will periodically provide the Customer, usually monthly, with a statement and an invoice for the amounts payable by the Customer. The invoice will be sent to the Customer by email.

4.3.2. Where there is an event which prevents an accurate determination of the number of units on which the call or usage charges are determined for a billing period, the call charge or usage charges for the period in question shall be set as the average call or usage charges for the preceding 6 (six) billing periods (or lesser billing periods if the Service has been provided for a shorter time).

4.3.3. The invoice sent by SWDconnect to the Customer is on the face of it, and until the contrary is proved, proof of the amount due by the Customer to SWDconnect. The Customer is, however, entitled to query or dispute any part of the invoice per the provisions set out under clause 13. All undisputed portions of the invoice must, however, be paid by the Due date.

4.3.4. If SWDconnect determines that the disputed amount is in error, SWDconnect shall credit the amount incorrectly debited. 4.4.2. Invoices and statements are available for download in SWDconnect Portal. Nonreceipt of an invoice by the Customer shall therefore not be considered as a valid reason for late or non-payment.

4.4.3. The Customer shall be liable and responsible for payment until payment has been received into SWDconnect's bank account.

4.4.4. The Customer shall be in breach of the Contract by cancelling any debit order without the prior written consent of SWDconnect or where any debit order is returned unpaid or stopped or should any charge card account, or credit card account of the Customer be rejected. In such a case, SWDconnect will have the right to suspend the Customer's account until such arrears amounts together with interest thereon have been received and paid in full.

4.5. Changes to Charges

4.5.1. SWDconnect shall be entitled to increase any of the amounts reflected in the Subscriber agreement, which increase will be relative to the Consumer Price Index. Increases linked to the Consumer Price Index usually are done once per year between January and April.

4.5.3. Any increase as per clause 4.5.1 and 4.5.2 will be given to the Customer in writing.

4.5.4. A Consumer will have the right to terminate the Contract without penalty or charge where any such increases render the Service unaffordable to the Consumer, on condition that it gives SWDconnect 20 (twenty) Business days' notice of its election to cancel the Contract. Where a Consumer terminates the Contract as per its rights under this clause 4.5.4 such termination will be without penalty, except where the Consumer has been given or has purchased but not yet paid for Subscriber Equipment. In such a case the Consumer will have a legal duty, and SWDconnect will have a legal right to demand from the Consumer full payment in respect of the Subscriber Equipment less any amounts that have already been paid to SWDconnect in respect thereof before such termination.

4.6. Unpaid accounts – Suspension of Services

4.6.1. Where any amounts due to SWDconnect by the Customer are not paid on Due date, SWDconnect shall give the Customer 7 (seven) days' notice to pay all arrears/outstanding amounts and start charging interest at the Interest Rate.

4.6.2. If the Customer's account remains unpaid or no written agreement is concluded to settle the arrears, SWDconnect shall suspend the Customer's services, and the suspension will stay in place until the Customer has paid all arrear amounts, interest and any applicable reconnection charges or the Contract is terminated by SWDconnect.

4.6.3. If the Customer's account is in arrears, then SWDconnect shall be entitled to suspend all Services linked to the Customer's account, regardless of whether the suspended Services are delivered according to multiple Subscriber Agreements or not.

4.7. Credit Limit and payment terms

4.7.1. SWDconnect reserves the right to impose a monetary limit on the maximum value of Charges incurred by the Customer during each billing period, and SWDconnect shall be entitled after the Customer has been given 20 (Twenty) days' notice of such overspend to which the Customer has not responded, to suspend the Services should the Customer exceed the maximum amount.

4.7.2. If SWDconnect and Customer agree on payment terms that are different to those set out in clause 4.4 and SWDconnect had to provide Customer with a notice in terms of clause 4.6.1 twice in any rolling 12 calendar month period, then SWDconnect shall be entitled to revert to the default payment terms set out in this clause 4.

- 5.1.8. Where the Service is removed because of a take-down notice that SWDconnect is obliged to act on.
- 5.2. The Customer accepts that the right to suspend the Services is necessary to maintain the quality of Services, the integrity of the SWDconnect Network, and to protect the interest of both the Customer and SWDconnect and that it will remain liable for all Charges which may be levied by SWDconnect during the period of suspension.
- 5.3. SWDconnect may from time to time, and on notice where this is possible, and without prejudice to any other claims or remedies which SWDconnect may have in terms hereof or in law, discontinue and/or terminate any part of the Contract, or in its discretion disconnect the Managed Service Equipment from the SWDconnect Network in any of the following circumstances:

6.3. The Customer shall be liable for all costs, including legal costs on an attorney and client scale, tracing cost and collection commission incurred by SWDconnect in respect of the enforcement of any obligations of the Customer in terms of this Contract.

6.4. Without diminishing any other claims or remedies which SWDconnect may have against the Customer in terms of this Contract or law, SWDconnect may terminate the Contract if the Customer has delayed the installation of the Service for longer than 3 (three) months and hold the Customer liable for Anticipatory Costs incurred by SWDconnect in this regard.

7. SUPERVENING IMPOSSIBILITY

Except as expressly provided under the Contract, SWDconnect shall not be liable to the Customer for failure to perform any obligation because of any acts of God, government restrictions or prohibitions or any other Government act or omission, any act or default of any supplier, industrial disputes, strikes, lockouts or work stoppages of any kind or any other similar or dissimilar cause, in so far as these were not foreseeable and beyond SWDconnect's reasonable control. Should any event contemplated in this clause prevent the provision of uninterrupted Service for a period exceeding four weeks, the Customer shall be entitled to terminate the affected Service without penalty.

8. CONSEQUENCES OF TERMINATION

After termination of the Contract for whatever reason:

8.1. SWDconnect may, on reasonable notice and in the Customer's presence enter the Customer's premises to remove the Managed Service Equipment which is owned by SWDconnect; and

SWDconnect shall not be liable for any loss of life; injury; medical expenses; support; financial loss or financial support; loss of earnings; loss of profit and/or income; loss of revenue; loss of business or goodwill; any other special damages; or any general damages – regardless of whether it was foreseeable or flowed naturally from the use of the Services.

9.5. Customer indemnifies SWDconnect against any claim or action which may be brought by any third party arising out of Customer's use of the Services or out of the use of the Customer's Services.
